Ms. Shervon T. Dubique and
Mr. Travis Williams

[REDACTED]

Dear Ms. Dubique and Mr. Williams,

I received my Bachelor's in Management Information Systems from Virginia State University and I am currently working toward my MBA. I am a single parent and every little bit helps, especially during this pandemic.

Thank you again for your generosity and selflessness to help support those furthering their education for better opportunities. I hope that like you, I will be able to give back once I have reached my career goals. God bless you both and your families.

I chose to attend Regent University because of my family's relationship with both Regent University and CBN. My grandfather worked for Regent as a janitor for many years before retiring. My aunt currently works at CBN, she has been there for over 20 years. My mother worked for CBN from the time she was pregnant with me, about 28 years ago, until earlier this year. My mother also received her bachelor's degree from Regent University. Being raised in this environment and witnessing the culture, I knew I would feel at home attending Regent. Everyone at Regent seems to strive to be the most Christ-like in every way. My undergraduate experience led me to want a Christian school. I wanted to be able to implement my religious and spiritual beliefs in my learning. Regent provided this.

Sincerely,

[REDACTED]
